John/Steve:

I have no issue with an EPA OSC who accompanies the sampling team taking custody of your sample (if the resident agrees) and presents it to you or your representative.

Rich.

I don't think that Rich will see a problem with that either (I will allow them to weigh in) - so far we have clear 'yes' or 'no' from people but we will continue to ask them and continue to offer them the option when we make our calls. Thanks.

Ann,

We appreciate the offer for EPA to collect samples for us. Can we work the same arrangement as the PADEP?

Thanks,
John

Thanks Stephen. The OSC with the sampling team will sign the chain of custody forms.

Subject: RE: Initial Sampling Schedule

Ann,

PA DEP would greatly appreciate EPA filling up our sample bottles on our behalf in those situations. For the chain-of-custody issue, we would like to ask if EPA would be agreeable to be one of the signatories in the chain-of-custody section on our lab submission sheets. That way the sample will show it was taken by EPA and handed off to DEP.

Thank you,

Importance: High

Hi John and Stephen -

Question for you.....we have several home owners that are not interested in having either of you sample their wells or to come on to their property. There is an option to allow us to fill your bottle ware during our sampling event (if those property owners are willing to allow that) - I am concerned about chain of custody issues but I wanted to know what you thought about having us do the sampling for you.

Please let me know as soon as possible - thanks Ann

Thanks for sending Ann. Would you please also send contact information for the residents as well?

Thanks,
John

Subject: Initial Sampling Schedule

Afternoon -

Rich Fetzter asked that I email the field sampling schedule for the first day.

Monday we will be sampling a Ex. 6 - Personal Privacy at 1:30 pm.

We are still working the schedule and will be in contact as soon as we are able to do so. Thanks.
